

**Don Bosco Monthly Medical Report
of Street Children (New Delhi)
Month – June 2019**

Name of the Centre	No. of Patients	Male	Female	Types of illnesses	Services offered	Comments
Usmanpur	73	31	42	Anaemia, acute gastro enteric, and scabies, acute viral fever, acute abdominal pain etc.	Counselling, medicines provided, advice on nutritious diet	Community children here are in a very bad situation. They are basically into scrap-working. So, there are multiple health issues in this area. However, situation is a bit better post our Team's visit over the past years.
Mithaipul ODRS	59	42	17	Skin disease, gastro-enteric, abscess, malnutrition, fungal infection, acute viral fever etc.	Counselling, medicines provided, advice on nutritious diet	Children are visiting the camp to seek doctors advice and in search of medical assistance. Mostly children are visiting from Railway Stations. Here there is a mix of both tyoes of children. Some are in a okay condition and some are not.
Bangla Sahib	76	47	29	Scabies, Ear Infection, Abscess, Malnutrition and Anaemia, Abscess, Acute abdominal Pain etc.	Counselling, medicines provided, advice on nutritious diet	Earlier the street children were living under completely unhygienic conditions, poor education, above 90% male and 70% female were drug addicts and the health conditions were worse however, the children nowadays are fairly better than before in terms of education and health. Additionally, the children found near Hanuman Mandir (CP) are still under the drug quipped situation.
Shahdara	92	56	36	Infections, infected wounds, traumatic injury, skin disease, abscess, upper respiratory disease etc.	Counselling, medicine provided, advice on nutritious diet	They are homeless and residing at nearby railway stations, and nearby areas. Fungal infection and infected wound are mostly diagnosed there.

Shashtri Park	88	37	51	Anaemia, acute gastro-enteric, and scabies, acute viral fever, acute abdominal pain etc.	Counselling, medicines provided, advice on nutritious diet	Community children are a little bit better than the street children but they are also suffering from health issues.
Bhika ji kama place	86	51	35	Infections, infected wounds, traumatic injury, skin disease, abscess, upper respiratory disease etc.	Counselling, medicines provided, advice on nutritious diet	This place has a good amount of children living in fairly good conditions as compared to the other centres. Here the issues are not any major ones, just basic fungal infections or the fever, wounds, etc type of diseases.
Jama Masjid	91	46	45	Anaemia, acute gastro-enteric, and scabies etc.	Counselling, medicines provided, advice on nutritious diet	Children here are addicted to drugs and beggars. They are homeless and residing at nearby railway stations, mosque area, etc. A number of diseases are found here.
Hanuman Mandir, Old Delhi Railway Station	82	47	35	Acute viral fever, URI, fungal infection, anaemia, acute gastro-enteric, and scabies, etc.	Counselling, medicines provided, advice on nutritious diet	The children found here are severely under drug addiction and are mostly homeless.
Kailash Nagar	89	34	55	Infections, infected wounds, traumatic injury, skin disease, abscess, upper respiratory disease etc.	Counselling, medicine provided, advice on nutritious diet	This is perhaps the cleanest centre amongst all the centres. Children are in a good condition and suffer from the regular infections and diseases.
Madanpur Khadar	102	57	45	Viral Fever, gastro-enteric, anaemia, URI, acute, etc.	Counselling, medicines provided, advice on nutritious diet	Poor hygienic conditions, unawareness, families live in Jhuggis provided by Construction builders. The health conditions are poor.

Munirka	72	46	26	Anaemia, acute gastro-enteric, and scabies etc.	Counselling, medicines provided, advice on nutritious diet	Community children are a little bit better than street children but they are also suffering from health issues.
Don Bosco Ashalaym	138	108	30	Infections, infected wounds, traumatic injury, fever, skin disease, abscess, upper respiratory disease etc.	Counselling, medicines provided, advice on nutritious diet	This is a shelter home for street children. Children come to this centre to stay in different kinds of living conditions.
Seelampur	73	48	25	Infections, infected wounds, traumatic injury, skin disease, abscess, upper respiratory disease etc.	Counselling, medicines provided, advice on nutritious diet	Community children are a little bit better than the street children but they are also suffering from health issues.
Sant nagar	87	38	49	Anaemia, acute gastro-enteric, and scabies etc.	Counselling, medicines provided, advice on nutritious diet	Here the children's' parents are more into alcoholism and drugs than the children themselves. Health conditions are also not that good.

We at the Don Bosco Health Centre, Basant Road, Paharganj, observed that Traumatic Injury, Abscess, URI- Upper Respiratory Infection, and kin diseases are very commonly diagnosed by our medical consultants. Mainly street children who stay at the railway platforms or at the shelter homes of other NGOs visit here for their treatment.

Special Health Camp organized on 20th June 2019 at Taimoor Nagar, New Delhi.

Bosco Delhi organised a Health Awareness camp with the help of another Ngo in the Taimoor Nagar area of New Delhi, on 20th June 2019. The main beneficiaries of this camp were the children who live on the streets with their families. Around 96 children took part in the camp. During this camp, Dr. Vijay Kumar spoke to the children about their living styles and suggested ways in which the children and their families could protect themselves from various diseases in the surroundings.

Awareness session organized on 21st June 2019 on International Yoga Day in Moti Bagh, New Delhi.

Bosco Delhi organised an awareness session on International Yoga Day at Moti Bagh, New Delhi, on 21st June 2019. Our Medical Team Coordinator, Mr. Ziauddin accompanied by Child Line's staff took this session. The children were told about the importance of Yoga and its origin. How health wise not just physically but also mentally, Yoga has been a tremendous game changer since ages, was being told to children. The children also did some Yoga Asans and totally loved it as well.

THANK YOU!! 😊
